Support the sale of 6-packs here!

We, the undersigned, believe that beer distributors in Pennsylvania should, in the interest of convenience to customers, be allowed to sell beer by the six pack.

We believe that with more than 1,100 beer distributors across the Commonwealth that these changes in the law would bring more convenience to customers while helping to ensure that beer is kept out of the hands of minors.

We hereby urge our legislators to take action now to help increase convenience for adults while protecting locally owned and locally operated small businesses.
