MBDA membership provides valuable benefits for beer distributors—

- MBDA was the driving force behind the enactment of Package Reform Legislation (Act 166) that allows beer distributors to sell all package sizes from a single to a case including growlers and slushies.
- MBDA promoted distributors being permitted to sell exciting new products including fermented fruit beverages and advocated that they be permitted to be referred to as wine-based or a wine product.
- MBDA continues to ensure that grocery, convenience and big-box stores not be permitted to sell beer by the case, in their aisles, or at all registers.
- MBDA's executive office is only a phone call away to offer assistance on any industry issue or problem. You'll have access to legal services from our attorney who specializes in the Liquor Code.
- Newsletters and emails are regularly sent to members to ensure that you're up-to-date on legal, legislative and regulatory issues.
- Income you generate and savings you realize through MBDA's discounted programs pay for your dues many times over. Members save thousands of dollars a year in insurance premium costs, credit/debit card processing fees, and electric utility rates.
